OmniHubs

OMNIHUBS AI CHATBOT BUILDER

The Power of Omnihubs

Chatbots, AI and one shared inbox to grow your business.

Customers expect fast answers

Many channels

Customers write on WhatsApp, Instagram, Facebook and your website.

Slow replies

Messages get lost when each channel has its own inbox.

Stretched teams

Staff repeat the same answers instead of closing sales.

Omnihubs puts every channel, your AI and your team in one place.

OmniHubs

Why customers choose Omnihubs

Seamless omnichannel

All customer interactions in one platform, with a consistent experience.

AI-powered automation

Automate responses, build smart chatbots and streamline support.

Analytics and insights

Track engagement and performance with real-time analytics.

Easy integration

Connect CRM, eCommerce and marketing tools.

Secure and reliable

Enterprise-grade encryption and GDPR-compliant communication.

Local team

Powered by T&T Global, based in Kuwait.

OmniHubs

How it helps your business

Lead generation

Capture leads from WhatsApp, Instagram and your website, and track them on your dashboard.

Sales

Follow up fast on the channels your customers already use.

Marketing

Send broadcasts and drip campaigns on WhatsApp and more.

Customer support

Bots and AI agents answer customers around the clock.

Team collaboration

Assign chats, set roles and work together from one inbox.

Smarter decisions

Track engagement and performance with real-time analytics.

OmniHubs

Your business at a glance

Usage at a glance

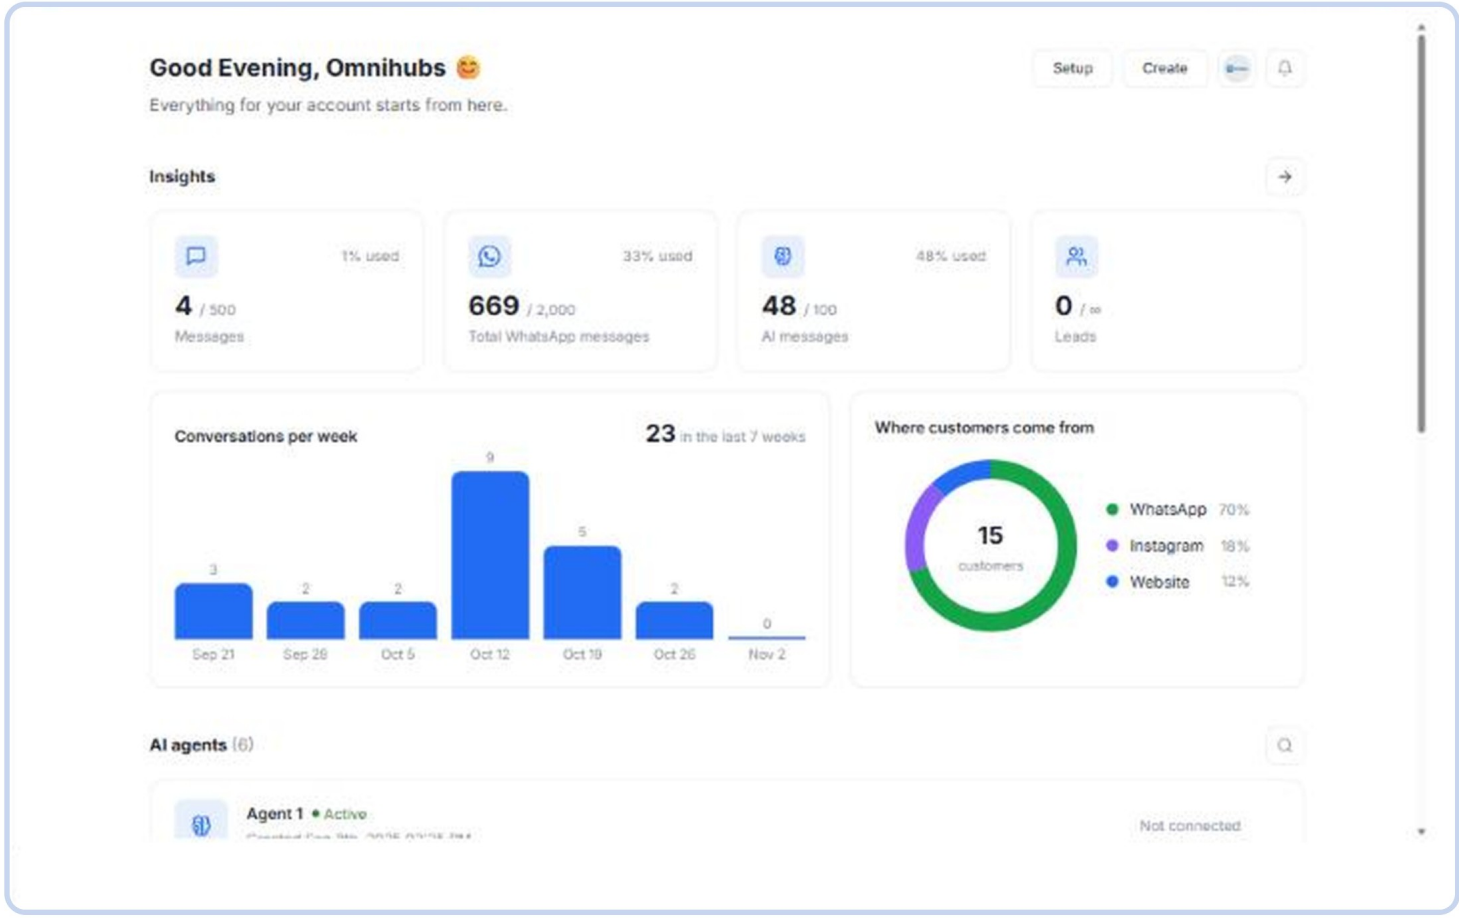

Messages, AI messages and leads against your plan.

Conversations per week

See how much your bots and team handle.

Where customers come from

WhatsApp, Instagram and website in one view.

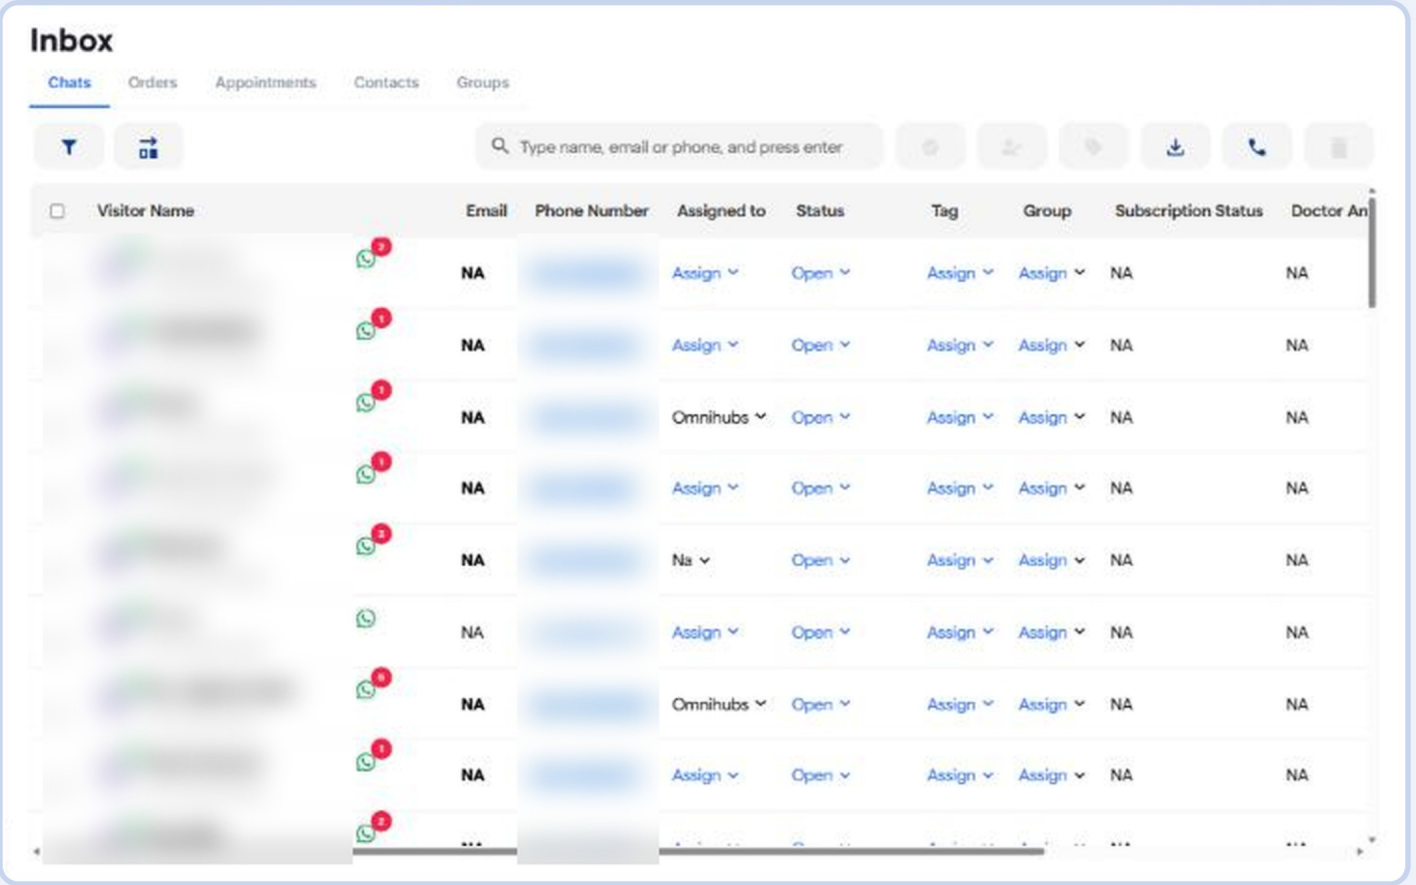

OmniHubs

Never lose a customer message

Every channel in one list

Assign chats to teammates

Tag and search contacts

OmniHubs

Build chatbots by drag and drop

Drag-and-drop flows

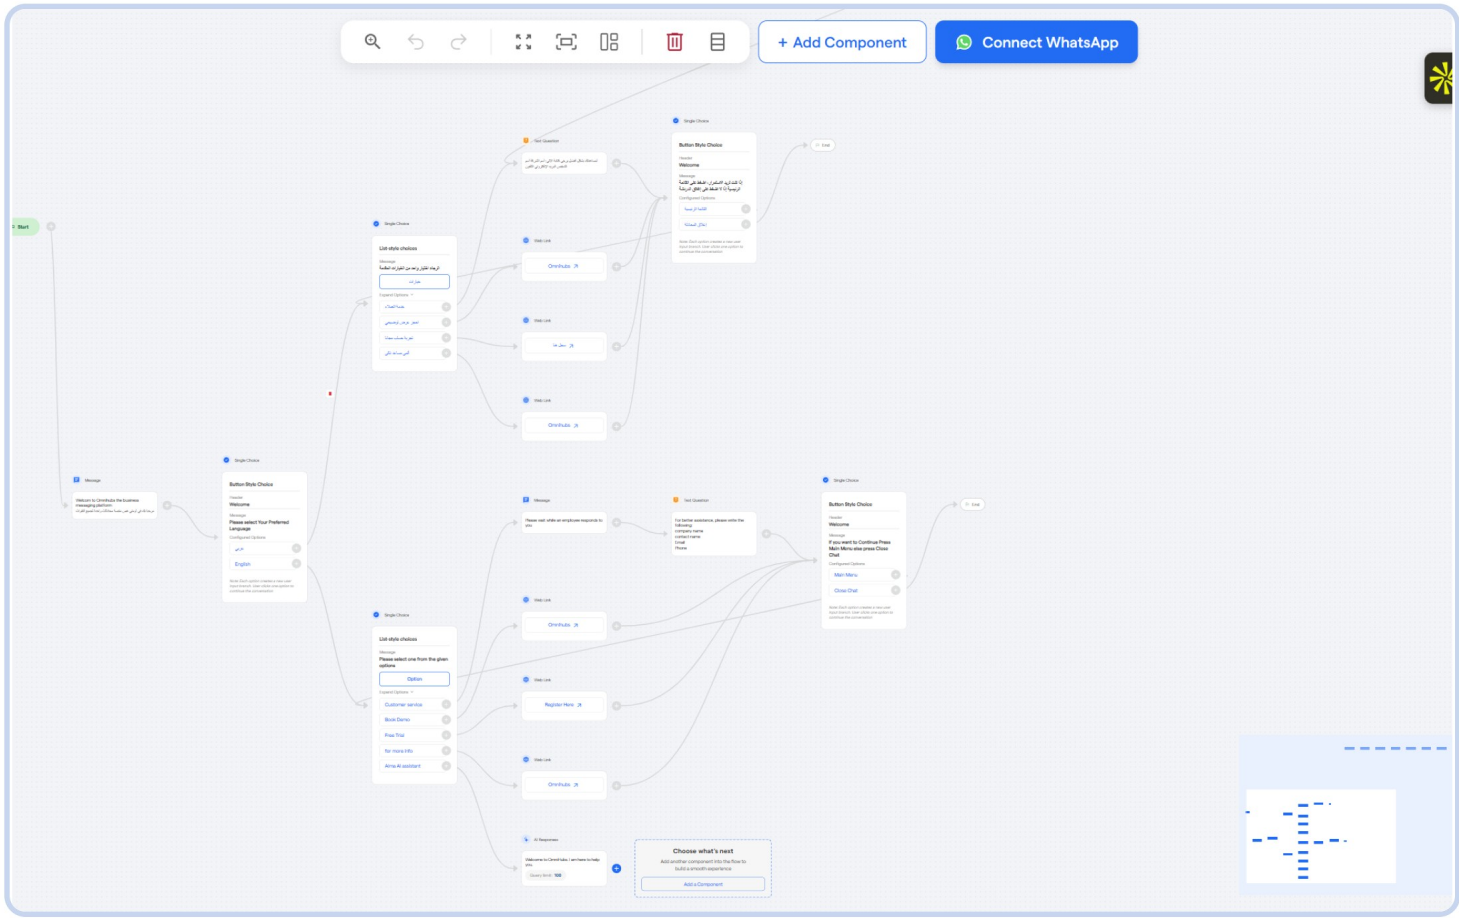

Connect message blocks on a canvas.

Add components

Add the next step to any flow.

Connect WhatsApp

Publish a flow to your number.

A real multi-branch customer flow built in Omnihubs.

OmniHubs

Train the AI on your content

Your own sources

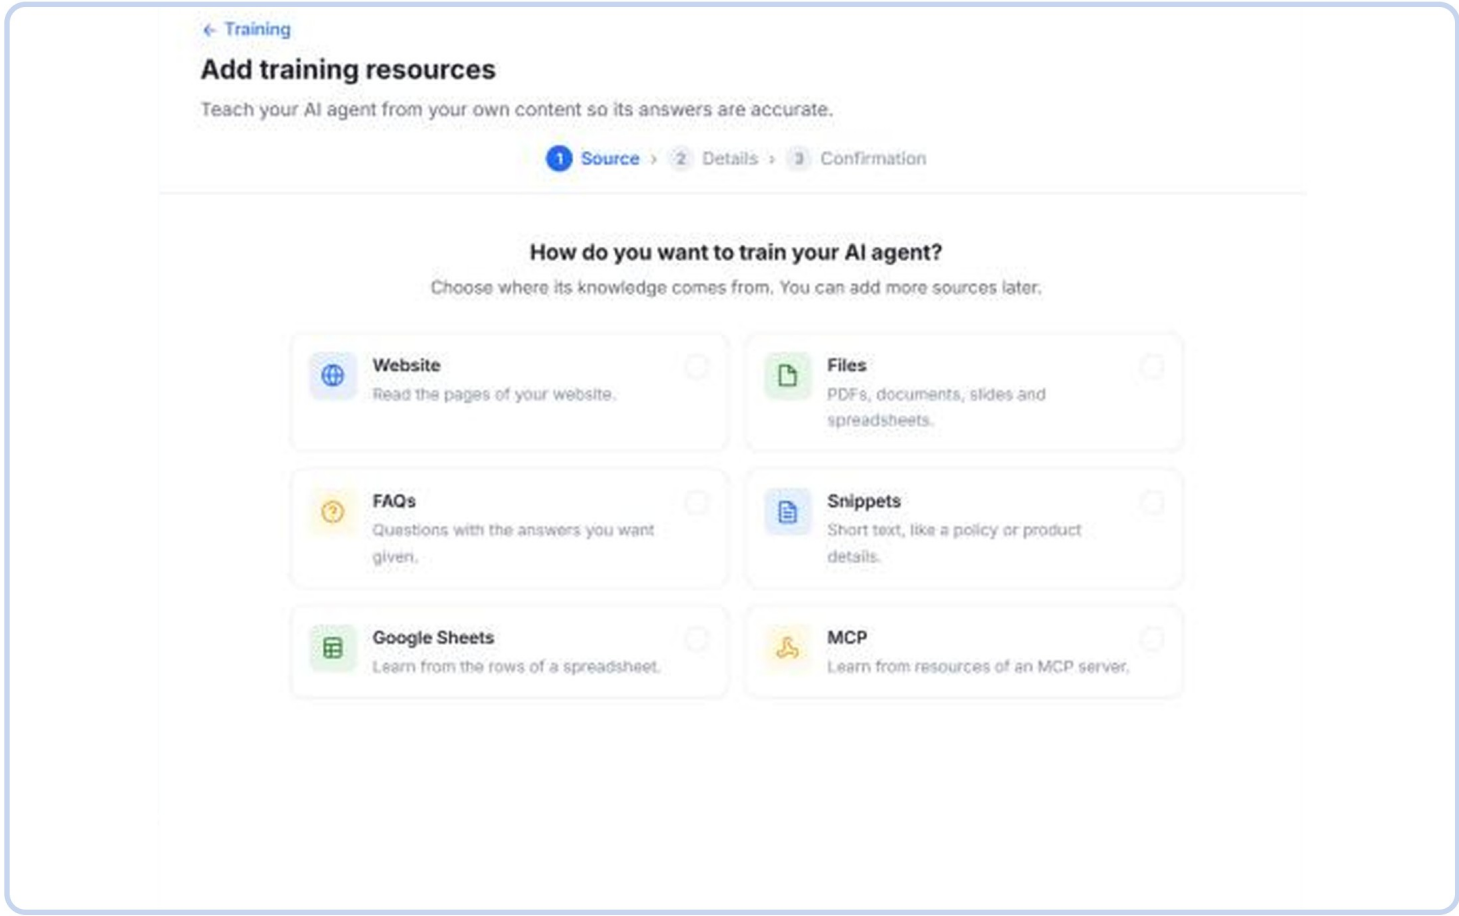

Teach your agent from your website, files, FAQs and more.

Accurate answers

Answers come from your content, not guesses.

Start small

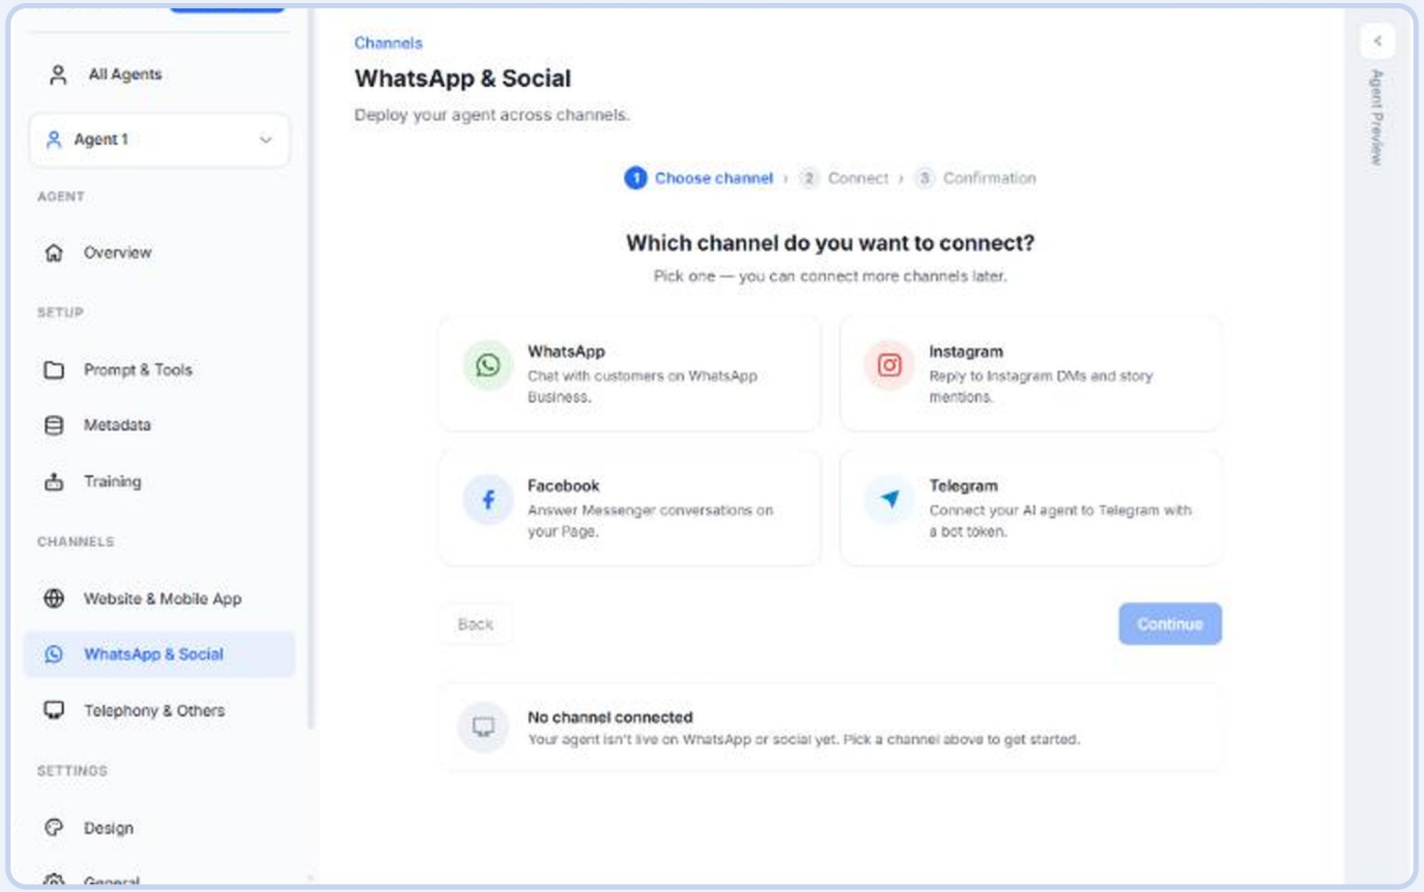

Add your first training resource to begin.

OmniHubs

Put your AI where customers are

WhatsApp | Instagram and Facebook | Telegram, website and phone

What sets Omnihubs apart

How Omnihubs compares with other chatbot and messaging platforms.

	Omnihubs	Other solutions
All channels, one inbox	WhatsApp, Instagram, Facebook, Telegram, website and phone	Often only one or two channels
AI trained on your content	Answers from your website, files and FAQs	Generic answers or a paid add-on
No-code chatbot builder	Drag-and-drop flows, published to WhatsApp	Often needs developer help
Integrations	33 apps, APIs and webhooks (by plan)	Fewer apps, often on top tiers
Local support	Arabic and English, with a team in Kuwait	English-first support from abroad
Pricing	Starting from $65 (21 KWD)/month, depending on plan	Often per user, with paid add-ons

OmniHubs
